

Our virtual trip is over! And, yes, we're back in Lincoln.

We have ended our virtual trip through Italy but we wanted to take this opportunity to thank everyone who participated--whether you were right or wrong. It gave us an opportunity to highlight some of the most beautiful and memorable cities in Italy. Each of them has something special to offer and we hope we perhaps inspired you to put one or all of them on your list for a future visit to this very special country.

The trophy, if we had one, for the perfect record would go to Pam Moura. Pam had the correct answer for every message. Even though her chances of getting a \$5 coupon ran out after her second correct guess, she continued to submit an answer each time--and was right every time! Thanks, Pam, for playing

along to the end. Bravo!

We want to applaud everyone who participated--whether once or several times. We had a few members who played along frequently. They are Carolyn Magulio, Rosemary Tanfani, Judith Nielsen and Julia Vitale.

For the entire contest, we gave away \$270 in \$5 coupons, so you see how many correct answers we had over the course of the competition! We look forward to our winners being able to use them soon when we have events again.

In case you missed any of the answers, here's where we went:

Polignano al Mare (gorgeous place with plenty of fish), Venice (glass and lace), Bologna (history galore and pasta bolognese), Matera (unique caves), Siena (horse races!), Florence (so much history and the statue of David), Ostuni (white city, blue water, olive oil), Capri (Blue Grotto and lots of \$\$\$ needed), Alberobello ("beehive" houses), Verona (you remember Romeo and Juliet, right?), Perugia (chocolate heaven), Taormina (clear waters, flowers everywhere and cannoli), and finally the Rome/Vatican City (Rome and the Vatican at Christmas--what more can we say). And then (sigh), back to Lincoln (well, there **is** Awful Annie's!).

During this boring stay-at-home phase, we hope this contest provided a little fun and entertainment.
